

## **Rescues and Foster Home Assistance**

Beyond the puppies and dogs that we breed, Nanhall is also often involved in the rescue and re-homing of dogs not only of our preferred breeds, but often pets that have been abandoned, or pets belonging to clients that through extenuating circumstances can no longer keep their beloved family member. We have also worked with Hospice at times to locate homes for pets that through those tragic circumstances are in need of a new family to love them.

Please check by often whether you are seeking a puppy of one of our lines for show or pet, or if you have interest in obtaining a dog or cat that needs a family or person to love..

1. Molly one of three rescue cats we assisted after their owner passed away. Congrats to new owner Ms. Nicole Slaughter.
